QUICK CHARGE

Quick Charge

By simply connecting to your PC's USB port, you can quick charge your Sapphire Ivory in only 2,5 hours and enjoy playback time of 35 hours in one charge

KARAOKE

Karaoke play mode

The Sapphire Ivory allows you to sing a song that is playing and listen to the mixing of your voice with the playing song. You can view up to 6 lines of lyrics texts on the display with lyrics highlighted and synchronized by letter. You can create and synchronize Karaoke text with any of your favorite music yourself by using the VOKA editor and VOKA player software.

35 HRS
PLAY TIME

35 hrs battery life

The Sapphire Ivory gives you up to 35 hours playback time of enjoying your music when player is fully charged. When stopped, the player automatically switches to standby mode after a while to save valuable battery life and maximize your playback time.

GAME

Games included

The Sapphire Ivory lets you also play games directly on the player. For your entertainment pleasure, the player comes preinstalled with the game of Tetris.

11
EQUALIZER

11 pre-set Equalizer settings

With the Sapphire Ivory you can listen to music the way you want by selecting your desired sound effects from 11 types of pre-set equalizer settings and one user-defined option. The newly developed surround audio technology OCHE 3D provides magnificent stereophonic multi-channel audio reproduction and "virtual rear surround effects."

e-BOOK

Ebook learning

With the Sapphire Ivory, you can read your ebook on up to 6 lines of display while listening to your favorite music all on your player. Simply install your ebooks onto your player to read and learn directly from it while easily navigating through your pages with the fast toggle. You can also bookmark the section your are reading and come back to that page at a later time.

8-LINE LCD

8 Line LCD

The Sapphire Ivory contains a 2.1 inch wide 8 line LCD display with up to 6 lines for comfortable and easy reading.

VOICE RECORDER

Voice Recorder

With the Sapphire Ivory, you can record voice or sound with your player's built in microphone or plug in an external microphone. Your player can also be set to record when it detects sound.
