

X1600 PRO HDMI

The Absolute in Mainstream Gaming Performance!

A tool for the performance oriented, the Sapphire X1600 PRO HDMI comes equipped with the hardware muscle to deliver an entire realm of fantasy right to your desktop due in large part to the awesome feature-set of the RADEON X1600 core, robust onboard memory configurations and 12 pixel shader processors architecture. An impressive hardware compilation supporting CrossFire™ paired with support for HDMI, Microsoft® DirectX® 9.0 Shader Model 3.0 ensures future compatibility and the advent of the ATI Avivo™ Video and Display Platform ensures that you will not have to be limit your fantasies to just your desktop.

Connects to your High Definition TV, LCD projector or PC.
